Among all these journeys, I like a journey by boat very much. A few days ago, I made a journey by boat from Noapara to Khulna.

2. Preparation

As I said, we decided to go from Noapara to Khulna by boat with my friends. One of my teachers also joined us on the journey. It was a school trip. Early in the morning, I woke up, took a bath, ate my breakfast, and went to my school. When I arrived, I saw that everyone had come to join the journey. Then we all went to the terminal to start our journey. Our teacher had already booked the tickets for us.

3. Starting the Journey

The journey started at 8 a.m. We started our journey from Noapara to Khulna. There were two people on the boat: one was driving it, and the other was helping him. At first, the boat moved slowly, but after a while, it started moving faster. We were very happy and enjoyed that moment very much.

4. The Beauty of Nature

During the journey, we saw many beautiful things, such as green fields, trees, rivers, small villages, and many more. Boys and girls were swimming in the river. We also saw farmers working in the fields. The natural scenery was very beautiful. We took some pictures to keep these memories with us.

5. Enjoyable Moments

We enjoyed the journey very much. We talked, laughed, and shared our food with one another. We looked outside and saw many interesting things. I also played games on my mobile phone. There were many other passengers on the boat, and they were busy with different activities. It was a really joyful moment.

6. Reaching the Destination

After two hours, we finally reached our destination. We got off the boat and collected our bags. We were a little tired, but our hearts were full of joy. The journey gave us many sweet memories. Some people came to receive us.

7. Conclusion

In conclusion, the journey was really wonderful. We enjoyed every moment of it. I will never forget this journey. It will always remain in my memory. I hope to make more journeys like this in the future.
